CONTENTS

POLICY PAPERS

The Malaysian Electronics Industry-Transition and Transformation
Tengku Mohd. Azzman Shariffdeen

The Philippine Electronics Industry
Leoncio Marcelo and Cathy Aquino

Singapore's Subcommittee on Microelectronics and Computers
Li Yuan-Lu

Microelectronics in Thailand
Pairash Thajchayapong, Borrawn Papasratorn and ChadamasThuvasethakul

Development of a Microelectronics Design Capability in ASEAN Tertiary Institutions Under an ASEAN-Australia Economic Cooperation Programme
C.H. Ling and Pairash Thajchayapong

RESEARCH PAPERS

ASIC Chip Design and Fabrication for a Small PABX System
Koarakot Wattanavichean

A CMOS High-Speed Array Multiplier Based on (2,2,3) Counters
Bakri Madon

A General Purpose Fuzzifier Circuit
M.H. Lim, K.T. Lau and J.S. Ho

An I/O Pad Assignment Algorithm for IC Design
Somchai Prasitjuttrakul

A New Distributed Arithmetic VLSI Architecture for Discrete Fourier Transform Processor
S.M. Rezaul Hasan and C.M. Hadzer
SOPS : Structured OPS5-Based Production System
Vilas Wuwongse and Ekawit Nantajeewarawat

An Expert System Approach to Product Design for
Manufacture and Assembly
N.S. Ong

Computer-Aided Optimization of Manifold Design to Improve
Turbocharging of Diesel Engines
Yong Zhao

Construction of a Low-Cost PC-Based Computed
Tomography Scanner
Zainal Abidin Sulaiman, Mohd. Yusof Sulaiman and Elias Saion

Information-Based Language Analysis for Thai
Virach Sornlertlamvanich and Wantanee Pantachat

BMQAS : A Human Engineering Approach to Natural Language
Question-Answering System
Siti Salwah Salim

Comparative Concept in Neural Networks for Translational
Invariant Object Recognition
C.M. Hadzer and S.K. Chuah

Isolated Digit Recognition and Automatic Translation Using
Hidden Markov Model
Masuri Othman, Azhar Jaludin and Zainul Abidin Md. Sharrif
